BEST BAGS	40c each

The above prices for better than 10 pounds. 5 to 10 pounds add 2c per pound, less than 5 pounds add 5 cents per pound.

Prices are F. O. B., Marysville.

Please read page 67 in the catalog about change in price and why it is not possible to guarantee field seed quotations. But we never raise prices until necessary. We call special attention to the paragraph about a decline in prices.

Page 68 tells why we ask cash with order.

Freight shipments are going thru quicker than they have for years. There is little danger of delay.

Express companies will not accept more than 120 pounds in a bag.

It is not possible to put three bushels in a bag for freight. A bag not quite full is not likely to be damaged.

Beans and other grains can be shipped in burlap bags weighed in but not charged. Cotton bags are always better.

If extra bags are needed we take out seed to offset amount.

Please carry out total pounds.
See last pages of catalog for freight
and express rates.

IF your name or address appeared
incorrectly on the envelope, or if you
have quit farming, a post card giving
the information will be much appreci-
